

Henderson County Master Gardener Association's **Monthly Gardening Guide**

This guide is specifically for gardening in East Texas.

The Monthly Gardening Guide
lists for each month:
the planting dates for specific vegetables
and
the gardening tasks for
flowers, shrubs, trees, lawn, and ground cover.

Tips and tricks relating to the chores listed are also included. For example, pruning information for roses, hydrangeas, and clematis is given. Additionally, the four different types of hydrangeas commonly grown in East Texas are listed, along with the correct pruning method and timing for each type.

The guide also contains additional information pertinent to gardening in East Texas. Topics such as soils, watering, butterfly and bee gardens, Texas Superstar® plants, bulbs, wildflowers, and herbs are included.

This book will be a treasure to every gardener in East Texas. It can be used year after year.

The guide also has additional pages each month for writing notes. This allows a gardener to personalize it to their own specific garden.

Covered with plastic, this spiral-bound book is approximately 5.5 x 8.5 inches, just the perfect size to pop into a tote or wagon and take out in the garden.

HCMGA is a 501(c)(3) non-profit organization. Proceeds from the sale of this book help fund horticultural educational projects and programs designed to meet the needs of Henderson County gardeners.

only **\$15**
